Saya telah men-download Software Krishand dari internet dan telah berhasil saya install, tetapi setelah saya klik that the shortcut Krishand refers to is unavailable. Make sure that the disk is properly inserted or the net
dikarenakan shortcut Krishand yang Anda klik dua kali, tidak menemukan Microsoft access.exe. Besar kemungkinan diperlukan software Microsoft Access. Tetapi ada alternatif lain, Anda bisa meng-install Krishand dari CD installer, jika tidak ada Microsoft Access. Untuk mendapatkan CD installer software Krishand Anda dapat menghubungi **Krishand Software** .
