Saya telah men-download Software Krishand dari internet dan telah berhasil saya install, tetapi setelah saya mencoba membuka software Krishand, muncul pesan bahwa the shortcut Krishand refers to is unavailable. Make sure that the disk is properly inserted or the network connection is available. Dikarenakan dikarenakan shortcut Krishand yang Anda klik dua kali, tidak menemukan Microsoft access.exe. Besar kemungkinan Anda belum meng-install Microsoft Access. Tetapi ada alternatif lain, Anda bisa meng-install Krishand dari CD installer, jika Anda belum meng-install Microsoft Access. Untuk mendapatkan CD installer software Krishand Anda dapat menghubungi **Krishand Software** .

Custom Fields Software: PPh21, Payroll, General Ledger, PPN, Invoicing, Withholding, Inventory, Fixed Asset, Lainnya
