

Error : "ActiveX component can't create object"

Article Number: 74 | Rating: Unrated | Last Updated: Tue, Jul 22, 2014 at 5:10 AM

Â Ketika saya ingin akan mengeluarkan laporan berupa excel muncul error seperti di bawah ini :Â

Â Apa penyebab dan bagaimana solusinya ? Â Penyebab : Pesan error tersebut muncul compatible. Â Solusi : Perbaiki dengan cara mengikuti langkah - langkah seperti di bawah Excel - Pilih Compatibility. Lihat Run as administrator (yang bawah diberi tanda centang) atau jika sudah dicentang

The screenshot displays the Krishand Payroll software interface. On the left, there is a list of reports, with '- Daftar Penghasilan Bulanan (Excel Format)' highlighted in yellow. On the right, there is a form for generating reports, including fields for 'Tahun' (2013), 'Bulan', 'Pembetulan Ke', 'Dan Tanggal', 'Dari Bulan' (Agustus), 's/d Tanggal', 'Dari Cabang', 's/d Cabang', and 'Departemen'. Below the form, there is a blue banner with the text 'Krishand Payroll' and an error message: 'The expression On Click you entered as the event property of the ActiveX component can't create object.' Below the error message, there are two lines of explanatory text: '* The expression may not result in the name of a macro, the name of...' and '* There may have been an error evaluating the function, event, or m...'. At the bottom of the form, there are buttons for 'Preview', 'Print', 'Excel', and 'Close'.

Custom Fields Software: PPh21, Payrollversi: Pay402; Pay501; PPh602; PPh701
